

Chapter 13 – EMOTIONS & NEW CHALLENGE

TELL was overcome with emotion when selecting the winner. He never would have thought that so many people are interested in his vision of the best HYDRANT in the ZEROWATERLOSS universe ... and MICHAEL from Münchenbuchsee never expected to actually win the BEST HYDRANT CHALLENGE. But after the grand celebration, TELL received some alarming news. A conflict between countries in the direction of the sunrise, that had been ongoing for many years, had turned into outright war. Suppressed concerns make themselves known again with sudden force: Are the water treatment plants and wells of HELVETIA safe? The VONROLL HYDRO WATERKNIGHTS have long since considered this question and, as such, have developed TELL's sensor technology further with INFRAPORT. TELL will be sent on a new mission. In the coming weeks, he will check the safety of the Helvetian wells together with the WATERKNIGHTS. You can also arrange consultation appointments directly via the following hotline: info@vonroll-hydro.ch, phone +41 800 882 020.

TELL will enter all MASTERS who express interest in the safety sensors in 2022 into a raffle to win an overnight stay for two at the Victoria-Jungfrau Grand Hotel & Spa in Interlaken (which features one of the best breakfast buffets in the world and a breathtaking view of the Harder Kulm mountain from the spa). Relaxation in dramatic times.
